MEN IN TRANSITION

What Happens After The Spiritual Restoration Program?

Once a person completes the Spiritual Restoration Program, House of Praise International Church continues to offer support through small groups that meet throughout the community for worship, bible study, and fellowship. These groups help the individual continue to reintegrate into society. Our goal is to partner with other social programs within the community in order to see our men become productive members of society.

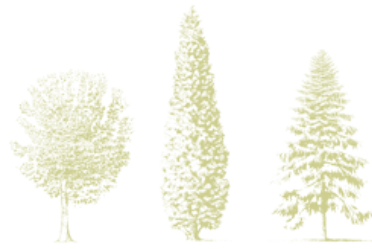

By partnering with community organizations, this additional support system helps them get jobs and assures that they can become economically self-sufficient. They are also encouraged to participate in their communities and their local church. Of course, they continue to build on the groundwork laid, ensuring they'll be emotionally, mentally and spiritually vibrant.

If you or anyone you may know of would benefit from this program, please contact the church office.

To see men's lives restored in order to become productive members of our community, by providing a holistic approach to healing that serves the spirit, soul and body.

Men's Center Activities

SPIRITUALITY

At House of Praise, we believe that addictions and unhealthy lifestyles go deeper than just the mind and the body. The root of these bondages are found at the spirit. Spiritual instruction and healing is the most important part of our program. The men are exposed to the Biblical teachings and participate in retreats in order to help begin spiritual restoration.

TEACHINGS

As part of our Restoration Program, teachers come throughout the week to instruct the participants in personal finance, daily devotionals, conflict management, and several other areas of practical living. Every lesson is designed to help them overcome old lifestyles and bondages.

SERVING

The residents are required to serve in different areas in the local church as well as the local community; just as Jesus taught.

Freely you have received, freely give. Matthew 10:8b

“...if someone is caught in any wrongdoing, you who are spiritual should restore such a person with a gentle spirit...” Galatians 6:1a

What is it?

The Spiritual Restoration Program is patterned after a highly successful intervention program that helps men whose lives have been shattered by problems that have overpowered and overtaken their lives. Drug addiction, alcoholism, and emotional upheaval are just a few of the problems that the program seeks to heal. The Spiritual Restoration Program reclaims, restores and redeems that which has been lost or destroyed in the individual's life. The Program seeks to accomplish these goals through helping the individual discover spiritual and mental freedom.

The Evening Facility

A drug user is often a product of his environment. Understanding this, we first get them off the street and into a caring home. Once there, the addict begins a rigorous faith-based, six month program that restores the whole person, body, soul, and spirit.

An essential part in the growth of an individual's spiritual life is the development of character and positive work habits. That's why our comprehensive program is based on a rigorous daily discipline of personal study, prayer, group discussions, and community service.

Those who run this program know it's not an easy road because many of them are ex-addicts themselves; yet through their tough-love, compassion and support, we are seeing tremendous results.
